Response to Office Action

\$ir:

This is in response to the office action mailed 07/05/2005. Claims 18, 20-22, 25-28 and 30-32 were rejected under 35 U.S.C. §103(a) as being unpatentable over Onoda (US 6,187,242) in view of Bickford et al. (US 6,506,083). The examiner is requested to reconsider this rejection.

The method is a method for Claim 18 is a method claim. The method includes forming two forming a fuel flange. tortuous paths; a first tortuous path between the electrical connector and the connector body, and a second tortuous path between the connector body and the fuel flange. electrical connector has first ribs that form the first tortuous path when the connector body is formed around the The connector body comprises a electrical connector. substantially uniform series of second ribs looping around an exterior of the connector body which, in combination with the
